

## Human Rights:

- Negative rights: where a constraint is imposed without giving anything
- Positive rights: where a constraint is applied by giving something. eg → education
- Post World War II ignored structured violence while defining human right.
- History of human rights ~~are~~ came from religion
- ~~social~~ One step further, we can view rights coming from society. These rights form from constitution.
- One more step further, is to form rights from structural violence, eg - reservation in India.

## Word embedding

↳ made wrt the context with the word / semantic basis

↳ cat, dog, cow are closer vectors than phone, laptop

- Recommendation system for search in movies can be done by taking IMDB description and taking euclidean distance from the search result.
